Social & Behavioral Sciences Pathway

### History Transfer Major

The Associate of Arts (A.A.) degree with a designation in history is designed for you to complete the first two years of a bachelor's degree at CCD and transfer to a university to complete a Bachelor of Arts (B.A.) in history. You will learn to analyze history from economic and political perspectives. History is the study of the past in order to help us understand the present. Studying history is much more than learning about people, dates, and events, you will also learn important skills that are valuable in many careers. These include strong research and writing skills, strong communication skills, and the ability to use digital collections, analyze source material and present evidence very clearly.

This program introduces you to history and it includes courses that are common to all four-year institutions in Colorado. Careers often require a bachelor's degree. Career paths for history degree holders include public service, law, business, library management, business, marketing, media and many more. History degree holders are found in many professions around the world. This A.A. prepares you to complete the second half of a B.A. in history at a four-year university.
