VETERINARY TECHNOLOGY

Associate of Applied Science Degree

Health Sciences Pathway- at Lowry CCD.edu/Vet-Tech

Veterinary Technology

Community College of Denver offers one of the most respected veterinary technology programs in the state. The Associate of Applied Science (A.A.S.) in veterinary technology prepares you to practice as a professional veterinary technician. The full-time or part-time curriculum is a blend of academic and clinical coursework that requires attention to detail, motivation and the ability to complete tasks within a specified time frame. You are encouraged to be self-directed in your learning and to establish high standards of professional and personal excellence. Successful completion of the prerequisite courses and the full veterinary technology curriculum results in an A.A.S. degree in veterinary technology.

Graduates are eligible to take the Veterinary Technician National Examination and have been able to rapidly find placement in the veterinary healthcare community. Veterinary technicians are paraprofessional members of a veterinary team, assisting a doctor of veterinary medicine. Veterinary technicians perform a variety of tasks, including preparing examination rooms and surgery suites, holding and restraining animals during the exam and/or treatment, collecting specimens, performing routine laboratory procedures, taking diagnostic X-rays, administering medication or treatments, assisting in surgery, performing office skills, maintaining inventory of supplies and assisting with client education.

Career opportunities for veterinary technicians are available in a variety of settings, including private veterinary practices, research laboratories, kennels, zoos, and local, state and federal agencies. These experiences can lead to other job opportunities such as sales, animal hospital administration, teaching in a veterinary technology program and animal advocacy.

PROGRAM ADMISSION REQUIREMENTS

For admission requirements and application, visit CCD.edu/Vet-Tech.

Total credit hours completed for the degree: 73-74 Veterinary Technology Apprenticeship Track

The apprenticeship program is a collaboration between the college, employer, and the US department of Labor. In addition to an AAS degree and Veterinary Technician National Exam eligibility, all program completers receive a nationally recognized certificate from the US Department of Labor. The program begins in the fall semester and runs continuously for five semesters, including two Winterim terms and one Maymester term for 21 months of continual study. Traditional college breaks do not occur with the apprenticeship program and time off follows the policy of each individual employer.

Total Credit Hours Completed For the Degree: 74-75 Credits Certificates

Health Sciences Pathway- at Lowry CCD.edu/Vet-Tech

Veterinary Technology Assistant

The veterinary technology certificate is ideal for those seeking an introduction to veterinary medicine with a limited investment of time and money. The one-semester certificate program is a blend of academic and clinical coursework. As a veterinary technician assistant, you will support veterinary technicians and veterinarians. Veterinary technician assistants perform a variety of tasks, including preparing examination rooms and surgery suites, holding and restraining animals during the exam and/or treatment, collecting specimens, performing routine laboratory procedures, taking diagnostic X-rays, administering medication or treatments, assisting in surgery, performing office skills, maintaining inventory of supplies and assisting with client education.

Career opportunities for veterinary technician assistants are available in a variety of settings, including private veterinary practices, research laboratories, kennels, zoos, and local, state and federal agencies. These

experiences can lead to other job opportunities such as sales, animal hospital administration.

PROGRAM ADMISSION REQUIREMENTS

For admission requirements and application, visit CCD.edu/Vet-Tech.

All courses must be completed with a grade of C or better prior to graduation.
