CCD's academic advisors are important components of your success team.

The relationship that you have with your assigned academic advisor is important. This is to ensure that you choose the right major or program for your educational and career goals and to reach the goal of graduation and/or transfer. New/transfer students are assigned an advisor based on your declared program or major within two weeks after each semester begins.

Declaring or Changing Your Program of Study

You should declare your program of study when completing the application for admission. You declare a program of study when first enrolling and should verify the program online via CCDConnect each semester. New students should consult this catalog or an academic advisor to determine available programs of study.

You may request to change your program of study with the Office of Registration and Records and/or may need to see your academic advisor for select programs and approvals. Meet with your academic advisor to discuss program requirements before changing your program of study.

You should consult with Financial Aid and Scholarships, International Student Service, and Veteran and Support Services before changing your program of study as it may impact your eligibility.
