Industrial Design

The Associate of Arts in Industrial Design prepares students for seamless transfer into Metro State University Denver's Bachelor of Science in Industrial Design. This two-year program equips students with a solid foundation in design principles, 3D modeling, and prototyping, essential for success in the field of industrial design. Students also benefit from interinstitutional courses, taking Metro State courses at CCD prices, providing an affordable pathway to a four-year degree. Graduates are well-prepared for advanced coursework in product design, manufacturing processes, and design thinking at the university level.
